HAVE A LOOK

AT OUR SILVER LEVER WATCH at Rs. 35 before buying, and you will give it the preference before any other.

The Watch as it is now, is the result of 20 years experience in the Indian watch trade, and we guarantee it to be the most perfect watch ever offered to the public for such a small outlay.

Being the manufacturers ourselves, the buyer obtains the watch from first hand. This explains its cheapness.

The Watches are of medium size in heavy engine turned silver cases, either hunting or half hunting. Guarantee 3 years.

To be obtained only direct from our firms at Bombay, Calcutta, and Secunderabad.

COMMERCIAL INTELLIGENCE

BOMBAY MARKET REPORT.

THURSDAY EVENING, Dec. 3.

BUSINESS generally for the past week may be said to have followed a quiet but steady course. In imports without anything of a special character to attract attention there has nevertheless been a full average volume of trade passing; and exports if restrained somewhat by the want of encouragement from the buying markets in Europe are still a head of the usual movements at this time of year. In round figures we have received from the districts during the week 20,000 bales of Cotton, 13,000 tons of Wheat, and 5,000 tons of Seeds, irrespective of the thousand and one small articles of merchandise of which daily statistics are not recorded, and insignificant as these quantities may appear alongside the large movements of the busy season, they are by no means unduly small for the end of November and beginning of December, when we generally consider that we are getting towards the end of the previous season's crops and contstarted with the new. Cotton is proving an unusually early crop. According to our estimate we have already had about 16,000 bales new growth into the market, a figure which we do not think has ever been surpassed, even if reached so early in the season, and there seems every likelihood that this is the prelude to one of the best crops ever handled on this side of India, both in quantity and quality. Regarding the cold weather crops of Wheat and Linseed it is too early yet to speak with any confidence, but they are mostly reported to be getting a fair start although rain is wanted in parts.

MONEY.—The ease apparent in the market previously so far from having diminished of late has if anything increased, the last return of the Bank of Bombay being one of the strongest on record. The Government Balances were reduced by 36 lakhs, but the other Deposits having increased by 51 lakhs, the week closed with a Cash Balance of 2½ crores, a rise of 14 lakhs. A position like this speaks for itself and simply means supplies of money far in excess of present requirements. Eventually with the large Cotton crop we shall have to finance the demand for money will no doubt be active enough, but that point we do not think is likely to be reached before the end of February or beginning of March, and in the interval it will be a difficult task to find profitable employment for surplus funds. The Bank's official minimum rate of discount remains unaltered at 4 per cent. Outside it is difficult to give an exact quotation; we should say 2 per cent., but demand loans secured by Government paper could probably be done at 1½ per cent. per annum. Elsewhere money at this level might lead to increased trade developments, but not so here. One of the disadvantages of Bombay business is that with 1½ per cent. now we are as likely as not to see 10 per cent. by the middle of April whatever precautions may be taken to avoid it.

EXCHANGE.—So far as current quotations go we have not a single fluctuation to report for the whole of the week. We closed for last mail at 1s. 6 3-16d. for demand Bank Bills, 1s. 6 13-32d. for 3 months' Credits, and we have now to repeat the rates, the following being the detailed quotations for bankers and staff at the termination of business to-day :—

Bank Bills on demand		..1s. 6 3-16d.	per rupee.
Do.	Telegraphic Transfer.	1s. 6 5-32d.	,,

With Bar Silver quoted 1-16d. per oz. higher at 47½d., the tendency in the early part of the week was all towards firmness, the Banks as a rule showing more willingness to sell than buy, especially forward. The absence of private bills to any amount, however, prevented this feeling developing into an absolute rise and latterly indeed brought about an easier tendency which in turn has been prevented asserting itself by the fall of the whole 35 lakhs of Council drafts having been taken up at yesterday's biddings in London at 1s. 6 7-32d. per rupee. This induces a slightly steadier feeling at the moment; but from now till the end of the New Year holidays we have a very quiet interval of business to face, unless the home markets exhibit a material change of front, and it would be no matter for surprise, therefore, if rates eased off a trifle—the more so that our import trade must call for remittances sooner or later against the considerable transactions gradually maturing. We speak of course entirely apart from what may result out of the discussion on the Bland Act in America, but it is a somewhat remarkable fact that the market of late has scarcely appeared to give that fact or a place in its calculations. The general feeling at any rate seems to be that the outcome will not tend to depress Exchange further at present and barring the reasons for temporary ease already adduced the Banks by their actions seem disposed to anticipate higher figures later on.

The current quotations for forward business during the week have been for 3 months' Credits, January delivery, 1s. 6 7-16d., February 1s. 6 15-32d., March-April 1s. 6½d. Bank telegraphic was quoted at 1s. 6¾d. for February, early in the week, but that we should say is the top figure now obtainable for demand.

The shipments of Silver for this side during the week are reported through Reuter this morning at £90,000 for Bombay and £20,000 for Calcutta, in addition to which there are £10,000 in Gold for this port. The following is the position of the Mint as shown by the return published in the *Government Gazette* to-day :—

GOVERNMENT PAPER.—Fours last mail day stood at Rs. 97 11-16 ready, Rs. 97½ for January delivery, and on the strength of higher quotations by wire from London hardened up to Rs. 97¾ and Rs. 97½ respectively. On Monday, however, the monthly settlement interfered with business, causing a decline of 1-16, and since then London coming lower rates have gradually weakened until to-day we quote Rs. 97½ ready, Rs. 97 5-16 to ⅜ for January. Fours-and-a-half rose from Rs. 99⅜ to Rs. 99½, but have latterly quietened down to Rs. 99⅜ sellers.

The tone at the close is weak, but the extreme ease in money prevents prices giving way much.

SHARES.—Considerable firmness has been apparent latterly especially in *Spinning and Weaving Mill* shares which are improving in favour as we are drawing nearer a plentiful supply of Cotton. Our quotations are advanced during the week by Rs. 25 in Central India, Rs. 10 in Coorla, Khandeish, Mahalukshmi, Manockjee Petit and Morarjee Goculdass, Rs. 7½ in Jewraz Balloo, and Rs. 5 in Albert, Edward and Connaught. Durnmoyee having stopped working again are Rs. 10 lower, and Madras United have receded Rs. 25, Orientals Rs. 5. *Press* companies are generally firmer in view of the prospects of a large Cotton crop in most of the districts. Berars have advanced Rs. 20 to Rs. 575, Mercantile and Prince of Wales are both Rs. 5 higher. Mofussils after touching Rs. 407½ are back again to par. *Banks* are steady, but with the exception of Bank of Bombays which have hardened up to Rs. 715. Nationals remain at Rs. 110, Agras at Rs. 130. In the Miscellaneous list the chief fluctuations have again been in Bombay Burmah Trading Co., which influenced by the news of the capitulation of King Theebaw ran up to Rs. 4,150 for first issue. To-day, however, the rate has quietened down again to Rs. 3,975. Kemp and Co., Limited, have been in active request and have advanced Rs. 13, Treacher and Co., Limited, are up to Rs. 1,145 buyers. Thacker and Co., are quoted at Rs. 175. Flour Mills are quiet but steady, Bapty Brothers at Rs. 210, Bombay at Rs. 670.

IMPORTS.

PIECE-GOODS.—Although the tone of our market on the spot is only described as quiet but steady, there is quite an average trade passing the clearance from the bazaar being estimated at about 3,500 packages for the week. Prices are generally unaltered though very firmly supported, and unless under very exceptional circumstances we are not likely to see any upward movement, as supplies on the way out are now known to be on an unusually large scale. The country no doubt is very lightly stocked and will readily absurb everything in sight as yet, but it will have to be at a moderate level of prices. Dealers meanwhile are not buying for distant shipment so freely as a few weeks ago. For one thing the position in Manchester has been against them and having moreover their more pressing wants supplied can afford to take their time about distant commitments.

LOCAL goods are firmly held for an advance of 1-16 to ⅛ anna per lb. and the off-take is on a fair scale. Stocks are prevented from increasing in some measure by the smaller production during the shorter days.

TWIST.—The extent of business doing in imported yarns is not large, but the market is quite steady at previous prices. *Local* Yarns are ¼ anna weaker owing to the decline in the Exchange on China, and business has been restricted only some 1,809 bales having so far as we can learn changed hands during the week.

METALS.—*Copper* is being freely offered and notwithstanding a pretty fair off-take has declined as 4 per cwt. on the week. *Yellow Metal* is quiet but not quotably altered. *Iron* is rather dull of sale and prices are unchanged certainly no dearer.

COALS.—The inquiry to arrive has been slow rather and we only hear of some 1,500 tons having been placed since last mail left at Rs. 14-8 for Davison's West Hartley and ordinary Cardiff, and Rs. 15 for Powell Duffryn alongside. Stocks on the bunder are now estimated at 60,000 tons all in the hands of dealers.

EXPORTS.

COTTON.—The strength reported from Liverpool a week ago proved to be merely temporary, larger receipts at the American ports having apparently induced a backward movement. This has as usual been reflected here and our quotations exhibit a decline of Rs. 2 to Rs. 4 per candy. The drop has been heaviest in ready Bengals which were in request up to the last moment for November shipment and fetching proportionately high prices, but are now not only in larger supply but less wanted. With the easier movement in values buyers although by no means keen have shown much more disposition to operate, and all things considered a fair extent of business has been done, totalling up in ready and forward probably 7,000 bales. Bengals have been the growth in which most bas been done, but transactions have taken place also in Omras on the basis of Rs. 185 down to Rs. 182 for Good March delivery, in Dhollera at Rs. 187 to Rs. 184 for Good April delivery, and Broach from Rs. 211 down to Rs. 209 for March.

Arrivals it will be observed are steadily on the increase and by our calculation we make out that we have already had about 16,000 bales of new crop made up of about 2,000 bales Hingunghaut, 8,000 bales Berar, 3,000 bales Khandeish, and 3,000 bales Bengals. The latter has been most disappointing as regards quantity something like 4,000 to 5,000 bales having been generally counted upon by the end of November. From the Berars on the other hand the supplies have been unexpectedly free, and we have already heard of receipts of upwards of 500 bales on one day in Omrawuttee which does not generally happen before the end of the year, and would indeed have been quite a fair day's arrivals in the busiest part of last season. What is coming in still showing traces of the late rains in the shape of some black leaf and stain, but these will soon disappear and the quality otherwise promises to be exceptionally good. From the Broach and Dhollera districts the indications are equally favourable, and there is a chance that the quality of this season's shipments may do a great deal to reinstate Bombay Cotton in the favour of home buyers, after the unfavorable results of the two previous seasons. Estimates of the coming six months' shipments now range from one to one and a quarter million of bales. The later figure will be quite possible we think if the European demand is sufficient to attract free selling.

The movements of Cotton to date show the following comparisons with the two previous years :—

Receipts.	1885.	1884.	1883.

Good Dhollera	April	,, 183	= 4¼d.
Fine do.	do.	,, 198	= 4 21-32d.

WHEAT.—For everything except No. 1 soft white the market has ruled rather dull during the week and prices have been the turn in buyer's favor. Ekdani however is scarse and perhaps a shade dearer. We quote :—

	Per cwt. Rs.	Rs.	
White Pessy No. 1.....	3 14 6	3 15 0	Apr. May delivery.
Laskari	3 14 6	3 12 0	do. do.
Khatia (Hard Red)	3 4 3	3 5 0	do. do.
Mandwad (Soft Red)....	3 11 0	3 12 0	do. do.

SEEDS.—*Linseed* is quiet and in very moderate demand at Rs. 6-11 per cwt. ready, Rs. 5-15-6 for April-May. *Rapeseed* is in very limited supply and is to some extent nominal. For Yellow Guzerat we quote Rs. 6 ready and for April-May, Red Cawnpore Rs. 5-1 ready, and Rs. 5-5 per cwt. for April-May. *Gingelly* is still coming forwatd very slowly the crop being a small one. White Khandeish maintains its price at Rs. 7 per cwt., Mixed Rs. 6-12-6.

Note.—From 1st instant the leading European houses have arranged to deal in all descriptions of Wheat and Seeds by the cwt, only thus doing away with the candy, which differed in weight with nearly every article.

The comparative imports of Wheat and Seeds are as follows :—

THE WAR IN BURMAH.

THEEBAW'S SURRENDER.

(FROM OUR SPECIAL CORRESPONDENT.)

AVA (THRO' MINHLA), NOV. 27.

The flotilla made a good run with a few stoppages yesterday. During the morning she passed a number of canoes filled with stones, moored in the centre of the river, and evidently intended to fill barges to sink as obstructions. The canoes were cut adrift.

At about 3-30 a large war canoe carrying a flag of truce was sighted. A launch from the survey ship took her in tow, and brought her alongside. The Envoy proved to be the Assistant Minister of Foreign Affairs, who speaks English well, and has been thirteen years on diplomatic service in France and Italy, accompanied by the Westmasoor Wandook, a thin, wan Mingyee, the Minister for Foreign Affairs, asking an armistice, &c.

The canoe had forty-four rowers, gilt oars, and gilded flag, and belonged to Theebaw.

The Envoy was received on board by General Prendergast, who replied that, acting on the Viceroy's instructions, it was quite of his power to accept any proposals affecting the movement of troops on Mandalay. No armistice could therefore be granted, but if Theebaw agreed to surrender himself, army, and capital, and if all the Europeans in Mandalay were found uninjured, General Prendergast promised to spare the King's life and respect his family. Further, he would take no more military operations against Mandalay beyond occupying it, and stipulated that the matters in dispute between the two countries should be negotiated on such terms as the British Government might dictate. The reply was to be received by 4 a.m. on the 27th.

The force started at 6 a.m., and was again met within a mile of Ava by an Envoy with a flag of truce bringing Theebaw's submission by telegraph to all General Prendergast's terms.

The Brigade then proceeded to land and destroy the guns in and near Ava.

The Burmese troops, about 500 in number, were taken over and shipped on the fleet, 100 of them being armed with Henri-Martini rifles.

The troops were not at all sulky at laying down their arms, and seemed happy that they were not obliged to fight.

The Burmese Envoy says the English have arrived at least a fortnight before he expected them; in fact, until the last the Burmah Government did not think they would come.

The survey ship has been employed to-day in finding a passage through the Sagein rocks and round the obstruction in the channel opposite the Sagein redoubt.

The disarmament of the Sagein redoubt on the right bank and the Thamdyadan redoubt, on the left bank, will be proceeded with to-morrow. An advance will then be made upon Mandalay.

The fleet is anchored to-night off Ava.

Admiral Richards arrived this morning.

General Prendergast is to be congratulated upon having brought the expedition, without a single hitch so quickly through the enemy's country. Had the advance been delayed, every day would have made resistance greater.

MANDALAY (THRO' THAYETMYO), NOV. 29.

The flotilla left Ava yesterday morning, and arrived here at 10 a.m.

Crowds of natives had assembled on the banks to see the English arrive.

Signor Andreino came on board. All the Europeans are safe, and have been unmolested.

The Okpa, a Flotilla Company's steamer, which had gone towards Bhamo, had been captured by the Burmese, and her armed crew had been imprisoned. They were released the night before our arrival.

The troops landed at 2 p.m., and marched by three different routes on the palace, which they surrounded. General Prendergast was met by the Kin Woon Mingyee, who begged that no one should enter the palace.

Colonel Sladen entered with the ministers, and interviewed Theebaw. The Queen-mother was also present. Theebaw, who seemed depressed, placed his crown and country at the disposal of the British.

His first idea was that he would be allowed to reside in Mandalay. He was informed that this was impossible. He then begged to be allowed to remain unmolested for to-night. This was permitted.

One brigade occupies the palace yard for the night.

General Prendergast interviews Theebaw at one to-day.

No Burmese soldiers were seen yesterday in the capital, which has been denuded of troops to defend the frontier. The city is quiet. All the inhabitants are glad of our arrival.

The Italian prisoners Comotto and Molinari are to be sent to Rangoon to-day.

At present it is unknown whether an advance on Bhamo will be made.

THE RENDITION OF GWALIOR.

BANQUET IN THE MAHARAJA'S PALACE.

(FROM OUR OWN CORRESPONDENT.)

VICEROY'S CAMP, GWALIOR, DEC. 2.

To-night there was a banquet in the palace, during which Sir Lepel Griffin, on behalf of the Maharaja, proposed the healths of the Queen and the Earl and Countess of Dufferin.

H. E. the Viceroy replied as follows:—Ladies and gentlemen,—In rising to acknowledge, on behalf of the Queen-Empress, the courteous terms in which the Maharaja has been good enough to propose my health, I am anxious to take the opportunity of offering him my sincerest congratulations on this morning's proceedings. When I received him in durbar, I was speaking as Viceroy and in the name of the Government of India, and my language was of necessity formal and restrained. Now, however, that I am addressing him as a personal friend, and as a guest under his roof, I may indulge in a more familiar strain. I may tell him what intense personal satisfaction I have derived at being the fortunate instrument through which the natural and legitimate desires of his heart have been gratified. In restoring to his keeping the noble fortress of his ancestors, which, with its historical monuments, its picturesque characteristics, and its commanding position, the greatest monarch might be proud to possess, I well know that it is to one of the most loyal feudatories of Her Majesty, to one of the best friends of the Government of India, to a fine soldier, and to a brave and honourable Prince that this great trust has been confided. (Cheers.) And furthermore, let me assure him that the gift thus conferred upon him by his Sovereign is conveyed freely and ungrudgingly, and untainted by any misgivings or regrets. Long, I trust, may His Highness live to look forth from its coronet of towers over the noble expanse of territory at the foot of his fortress of Gwalior; and for many and many a generation hereafter may his descendants refer with gratitude and reverence to the name of their distinguished ancestor through whose merits and good fortune so bright a jewel of the State was restored to the family. And, in saying this, I feel that indirectly I am addressing the Princes of India at large, and that the especial honour which peculiar circumstances have enabled the Queen-Empress to confer upon one of their most illustrious representatives is shared by them all, as no more striking proof could be given to the world of the deep trust reposed in their loyalty as a class by their Sovereign and the British nation. At all events it is in this light that Her Majesty and her Government hope that the matter may be regarded. (Cheers.) And now, ladies and gentlemen, before I sit down I will ask you to drink the Maharaja's health. The major part of this company is composed of the officers and of the inhabitants of the neighbouring cantonment of Morar. I know that I am expressing the feelings of those gentlemen, and of all connected with them, when I say that it is with extreme regret they have learned that the arrangements following upon the cession of the fort of Gwalior will remove them from the vicinity of the munificent prince and considerate host and neighbour within whose territories they have enjoyed such a pleasant sojourn, and of whose personal kindness they have had so many proofs. (Loud cheers.)

After the dinner there was a display of fireworks.

DEC 3.

It is expected that when the troops vacate the fortress of Gwalior and the cantonment of Morar for the camp of exercise at Delhi, the departure will be final.

Prior to leaving the Viceroy signed a sunnud conferring the title of Rai Bahadur on Unund Persaud, Vakil of the Maharaja with Sir Lepel Griffin, Agent Governor-General, as a personal distinction.

The instant before the Viceroy left the camp, General Prendergast wired that the British forces had occupied Mandalay without opposition, the populace being glad of the change of administration. No further particulars are to hand.

The Viceroy held a long conversation with Sir Michael Filose, and complimented him on his success as architect and engineer to the Maharaja Scindia, expressing himself deeply interested in all that he had seen. The Viceroy also, through his Private and Military Secretaries, communicated to the Durbar the entire satisfaction afforded by the efficient arrangements made by the Maharaja's post office during the Viceregal visit.

His Excellency and party left this afternoon for Dholepore.

Sir Frederick Roberts remained here till this evening, and left by the same train as Sir Lepel Griffin for Delhi, where he stays for two days. He then goes to Simla.

Sir Lepel Griffin reaches Indore on the 9th inst.

THE BULGARIAN QUESTION.

BELGRADE, DEC. 2.

Bulgaria has rejected a proposal made by King Milan for a mutual evacuation.

The armistice has been prolonged until the 1st January.

CONSTANTINOPLE, DEC. 2.

The Porte has appointed Djevdet Pacha Governor of Roumelia, and is now making preparations to occupy the Province. The British Ambassador here is, however, opposed to such a course; but the other Powers approve of it.

DEC. 3.

At a sitting of the Conference held on Tuesday, Said Pasha, the Minister for Foreign Affairs, announced the departure of the Turkish delegates appointed to reorganize the Roumelian administration His Excellency also asked for the signature of the protocol of the sittings whereat the right of the Porte to despatch Turkish troops to Roumelia was recognised. Sir William White refused to sign the protocol, urging, that a mixed Commission should be appointed to inquire into the matter preliminary to such being taken. The Porte thereupon decided to accept the resolutions carried by the Conference in favour of the restoration of the *status quo ante* in Bulgaria.

Sir William White has received instructions to promote the union of Roumelia with Bulgaria as being in the interest of Turkey.

PHILIPPOPOLIS, DEC. 3.

The Turkish delegates arrived here to-day.

An influential meeting of the principal inhabitants was held under the presidency of the Bishop, at which it was resolved to reject the proposal of the Conference to settle the question by the restoration of the *status quo ante*, and to request the delegates to leave the country. It was also decided to send a deputation to inform the various Consuls of the steps taken.

JUDGMENT was delivered yesterday by Mr. C. P. Cooper, president of the Marine Court of Inquiry which was appointed by Government to investigate the circumstances connected with the stranding of the s.s. Mouksecaton, off the S. E. Prong, on the morning of the 24th ult. The ship, which was bound for Marseilles, was in charge of Mr. Melling, a first-grade pilot. The court held that the accident had occurred owing to the carelessness and inadvertence of the pilot in the performance of his duty. No blame was attached to the master and crew of the vessel, who, the court said, had implicitly obeyed every order given by the pilot. The court strongly recommended that a buoy should be placed near the reefs to indicate danger, observing that it would be of great service to mariners in thick and hazy weather.

THE appointment of Mr. Wordsworth to be Sheriff of Bombay for the ensuing year is notified in yesterday's *Government Gazette*.

MR. K. M. CHATFIELD, having returned from leave, has resumed his duties as Director of Public Instruction. The services of Mr. Lee-Warner, who acted during Mr. Chatfield's absence, have been placed at the disposal of the Government of India for employment on special duty in the Hyderabad State.

CAPTAIN W. P. KENNEDY has received charge of the office of Assistant Political Agent in Halar from Mr. H. F. Aston, C.S.

MR. A. SHEWAN delivered over charge of the office of Assistant Judge and Sessions Judge in Ahmedabad on the 16th ult., and on the following day received charge of that of Assistant Judge, F. P., for Kaira and Panch Mahals, and Joint Sessions Judge of Ahmedabad.

THE following police appointments are notified:—Mr. M. Kennedy to act as District Superintendent of Police in the Bijapore district during the absence of Mr. Goldsmid, *vice* Mr. Down, proceeding on furlough; Mr. F. H. Warden to be placed on special duty in Kattywar for the purpose of assisting in the organisation of the new Agency Police in that province, *vice* Mr. M. Kennedy; and Mr. C. F. G. Lester, on the completion of his term of special duty, to be temporary Assistant District Superintendent, and to be on special duty for the purpose of assisting the District Superintendent, Ahmedabad, in organising the Palanpore police, *vice* Mr. Warden.

MR. E. MCCALLUM, C.S., Assistant Collector, Bijapore, has been allowed leave on medical certificate for one year. He is succeeded by Mr. J. D. S. FitzMaurice.

Two months' sick leave has been granted to Mr. J. Davidson, C.S.

LEAVE has been granted to the Hon. Rao Saheb V. N. Mandlik, C.S.I., to enable him to proceed to Calcutta, in order to take his seat in the Supreme Legislative Council. Mr. Pandurang Balibhadra will act as Government Pleader in the High Court during his absence.

FROM the Bombay Presidency season reports for the week ending the 2nd inst., it appears that the river continues low in Sind. The reaping of the kharif and the sowing of the rabi crops is in progress in several districts. More rain is wanted for the rabi crops in two talukas of Poona, one of Nassik, and two of Khandesh, and in parts of Ahmednuggur. The standing crops are suffering from drought in parts of Ahmednuggur, and from blight in parts of Bijapore. Cholera and cattle-disease are prevalent in parts of nine, fever in parts of sixteen, and small-pox in parts of five districts.

As we announced some weeks ago, Sir Frederick Roberts will pay a flying visit to Simla, and will then establish his head-quarters at Delhi, in order to himself superintend the selection of the ground for the closing spectacle of the Camp of Exercise.

SIR FREDERICK ROBERTS has decided that full dress is to be worn on the occasion of the grand march-past at the forthcoming Camp of Exercise.

PRUSSIA, Russia, Austria, France, Italy, and the United States are the countries which will send military representatives to the Camp, two each, and in the case of Prussia possibly three.

IT is considered probable that the Viceroy may visit Burmah, when the time comes for deciding the arrangements for the future government of Theebaw's territory.

IT is expected that Mr. Cordery, C.S., Resident at Hyderabad, will visit Berar and Aurangabad about the middle of the current month. Mr. Glass, M. I. C. E., Superintending Engineer, H. P. W. D., and the Examiner of Public Works Accounts are now on tour of inspection in Berar.

BRIGADIER-GENERAL MCQUEEN, C.B., and A.D.C. to the Queen, Commanding the Hyderabad Contingent Force, with Captain Garrett, Assistant Adjutant-General, will visit Raichore about the 8th, Ellichpore on the 15th, and Aurangabad about the 22nd inst., after which he proceeds to Hingoli. The Deputy Surgeon-General, Dr. Henderson, Hyderabad Contingent, will proceed on his tour of inspection about the same time.

WE are informed that the section of the Southern Maratha Railway from Poona to Kolhapore will be opened for traffic in August next.

AN address of welcome to Mr. Edwin Arnold, as the author of the "Light of Asia," is being signed by the leading Buddhists in Ceylon.

THE Annual Convention of the Theosophical Society will be held at Adyar in Christmas week.

FROM the educational report for Berar for 1884-5 it appears that there were 39,727 scholars on the register, who received instruction in 950 schools. "It is to be hoped," remarks a correspondent, "that Mr. Cordery will see to the necessity of establishing a school for the Eurasians from the surplus Berar revenue at Amraoti under the care of Mr. Leslie Saunders, C. S."

ON the return of Mr. F. R. Hogg to the Director-Generalship of the Post Office, a few days ago, Mr. H. E. M. James, who had been officiating for him, has become Deputy Director-General, and Mr. P. Sheridan reverted to his old appointment of Inspector-General of the Railway Mail Service, in which capacity Mr. E. C. R. Douglas, C.I.E., has lately been acting.

THE latter gentleman has now retired, and the following valedictory address has been issued by the officiating Director-General of the Indian Post Office in the form of a departmental circular:—Mr. Hogg, Director-General of the Post Office, returns to duty on the 21st inst., on which date Mr. E. R. C. Douglas, C.I.E., retires from the service. The Officiating Director-General desires therefore to take this opportunity of placing on record not merely his own sense of the value of Mr. Douglas's services in the department, but to express to him, on behalf of the department, their regret at losing so universally esteemed a colleague. Mr. Douglas has served Government in the Post Office for upwards of 31 years, and in its organisation and in the development of its useful and varied lines of work he has taken a prominent part. The Officiating Director-General is sure that Mr. Douglas carries with him the best wishes of the department for a long and happy retirement.

THE Viceroy entertained Sir Frederick Roberts at a banquet at Agra on Monday evening, the Lieutenant-Governor of the N.-W. P. being present. It was followed by a reception, at which all the civil, military, and native gentlemen in Agra assisted. After dinner the Viceroy proposed the health of his distinguished guest in a few hearty unpretending words, absolving him from the ordeal of reply, for which Sir Frederick Roberts looked, and probably felt, grateful.

FROM Gwalior the Viceroy proceeds to Lucknow, where His Excellency will be the guest of Sir Alfred Lyall. The arrival is timed for 9 a.m. to-day. Addresses will be presented at the railway station by the Municipality and honorary magistrates; at noon there will be a levée, and in the afternoon a presentation of colours to the Leicestershire Regiment, who celebrate the occasion with a ball at the Chutter Munzil in the evening. To-morrow morning the Viceroy visits the Jubilee Institute; in the afternoon there will be a garden party at Government House, and in the evening a reception at the Chutter Munzil. The early part of Monday is to be devoted to sight-seeing, and in the evening an entertainment is given to the Viceroy by the Talukdars of Oudh in the Kaiser Bagh. At 9-30 on Tuesday morning the party leave for Cawnpore.

A TELEGRAM published in a Calcutta paper states that a serious electioneering riot occurred at Londonderry, where the troops were called out, and charged the mob.

WHAT thorough barbarians the Burmese are in time of war may be seen from an incident mentioned by the correspondent of a Calcutta paper with the Tounghoo column. Telegraphing from Gyobin on the 29th ult., the correspondent says:—"Yesterday a reconnaissance was made by a company of the Somersetshire Regiment and a company of the 3rd Madras Infantry, with two guns. The village of Ahaw, two miles to the north, was shelled and burned. The infantry crossed the river, but found no one in the village. Four mounted police were sent over the frontier to scout, but, about half a mile beyond the border, the Burmans fired on them, killing one, when the remainder returned and reported. A company of the Somersetshire Regiment went forward under Major Baber, and reconnoitred, but found no enemy. They recovered the body of the policeman who had been shot. The Burmese had cut off his head, and carried it away."

THE Government has appointed Mr. Mahomed Husen Hakim, barrister-at-law, to succeed Mr. Abdul Rahiman Mini as a member of the Municipal Corporation.

THE statement that Sir Herbert Macpherson is to succeed Sir Frederick Roberts in the Madras Command has been confirmed. Regarding the appointment of Sir C. Arbuthnot to the Bombay Command, the *Pioneer* remarks that if Sir C. Arbuthnot would seem to the unprofessional critic to lack the evident qualifications for such a distinguished command as Bombay, it is satisfactory to believe that his predecessor approves, and that the Commander-in-Chief is satisfied with the appointment.

MILITARY NEWS.

THE Field Post Office has been established at the Camps of Exercise.

CONSIDERABLE changes in the composition of the forces for the Camps of Exercise in Bengal have been rendered necessary owing to the breaking out of anthrax among the horses of several batteries.

THE Government of India have negatived the recommendation of the military authorities to establish a treasure-chest in each Camp of Exercise. The decision is a penny-wise and pound-foolish one, and will cause considerable inconvenience to corps, but more to the Commissariat and Transport Departments, who will not have the means to pay their contractors' bills on the spot.

LIEUTENANT-GENERAL SIR MICHAEL BIDDULPH, K.C.B., Commanding the Rawal Pindi Division, Bengal Army, vacated his Command on the 1st inst., on completion of his tenure of appointment, and has been temporarily relieved by Brigadier-General H. G. Wilkinson, C.B., Commanding Calcutta District, who only lately returned to the Presidency from the officiating Command of the Meerut Division. General Wilkinson will command a Division in the Southern Camp of Exercise.

CAPTAIN A. KEENE, R.A., has been ordered to return to duty.

SURGEON-MAJOR R. F. BUCHANAN, Medical Staff, is retiring from the service.

LIEUTENANT-COLONEL S. W. WEST, S.C., has been allowed furlough for twelve months.

THE 2nd Bombay Grenadiers, our correspondent telegraphs, reached Tunghoo on Sunday evening.

LIEUTENANT-COLONEL C. F. JAMES, S.C., has been granted an extension of leave for six months.

SURGEON-MAJOR W. NOLAN has been permitted to return to duty within the period of his leave.

LIEUTENANT L. PARKES, of the 1st Battalion Durham Light Infantry, has proceeded on fifteen months' leave to England on private affairs.

LIEUTENANT FRANCIS JOHN FOWLER, 1st Battalion North Lancashire Regiment, has been appointed a probationer for the Bombay Staff Corps.

THE services of Lieutenant H. W. Abud, S.C., 13th Native Infantry, have been placed temporarily at the disposal of Government in the Political Department.

THE Government of India have sanctioned the grant of non-regulation passages on troopships to the wives and families of the officers engaged in the expedition against Burmah.

LIEUTENANT H. S. WHITE, No. 7 Battery, 1st Brigade, Southern Division, Royal Artillery, has been granted twelve months' leave to England on medical certificate.

EXTENSION of leave on medical certificate has been granted to the following officers:—Lieutenant-Colonel C.E. Blowers, S. C., six months; Surgeon-Major A. Barry, M. D., three months; Surgeon A. C. Thompson, 90 days; and Lieutenant W. G. Alban, S.C., 182 days.

CAPTAIN GUBBINS, 2nd-in-Command 3rd Cavalry H. C., having returned from special duty with the Military Secretariat of the Government of India, relieved Captain G. Adye, who is permitted to remain as a supernumerary with the cavalry till after the Secunderabad Camp of Exercise that takes place this month.

SURGEON SWAINE, M. B., Medical Officer 2nd Infantry H. C., at Hingoli, has been appointed Civil Surgeon of Bilaspur, C. P. Surgeon DaCosta (Madras) has been appointed Medical Officer 3rd Infantry, at Jalna, *vice* Dr. Wortabett, appointed Medical Officer, 4th Cavalry, at Mominabad.

THE Government hired transport Sirsa, Captain Whitehard, arrived in harbour on Wednesday from Suakim, with the following officers and troops:—Lieutenant-Colonel Stewart, Captain H. M. Mackenzie, 9th Bl. Cav., Captain Lindley, R. E., Brigade Surgeon Morice, and Surgeon Symthe, M.D., 6 warrant officers, 6 native officers and hospital assistants, 165 men, 79 private and 89 public followers, 78 horses, and 41 mules.

AS we before announced, Lieutenant-Colonel H. Walker, Royal Artillery, Officiating Inspector-General of Ordnance, Bengal Circle, will succeed Lieutenant-General A. A. Bayley as Inspector-General of Ordnance, Bombay. Lieutenant-Colonel F. Spring, Royal Artillery, well known in Bombay from having been in charge of the arsenal, will act as Inspector-General of Ordnance, Bengal, until the return of Lieutenant-Colonel R. F. Lowis from furlough on the 1st April next. Major A. Fletcher, Assistant Inspector-General, Bombay, will act as Deputy Inspector-General, Bengal; Captain A. H. Browne, Assistant Inspector-General, Bengal, will be transferred to act as Assistant Inspector-General, Bombay; and Lieutenant A. L. M. Turner, 4th Class Commissary of Ordnance, Fort William Arsenal, will act a Assistant Inspector-General, Bengal.

COLONEL C. P. FORBES, who formerly belonged to the 3rd Bombay Europeans, which, 25 years ago, became the 109th, but is now a battalion of the Royal Canadians, or the Leinster Regiment, which, in the first instance, was mainly composed of the German Legion of Crimean days, will be retired to half-pay on the 1st December on completing his five years in command. He only joined the service in August, 1858, but promotion was quick in the old 109th for a time. The command of the old 109th will, it is presumed, go to Colonel Dunn, formerly of the Bombay General List, who joined the regiment in 1861, whilst Major Collum, of the 1st Battalion, at Fyzabad, will obtain his promotion. This officer was exceedingly lucky in his promotion to captain, getting it in six-and-a half years in the 82nd Regiment, which in those days (1870) was unprecedented. The 82nd, however, had great promotion amongst the subalterns just before purchase was done away with, a great number of steps going for £1,000 over the regulation price—one going as far as much, it is believed, as £1,400, and another for £1,200. Major Collum has not yet seen 22 years' service, and is only 40 years of age.

THE STRANDING OF THE S. S. MONKSEATON.

JUDGMENT was delivered yesterday by Mr. C. P. Cooper, as president of the marine court of inquiry appointed by Government to investigate the circumstances connected with the stranding of the s.s. Monkseaton off the S.E. Prong, on the morning of the 24th ult. Mr. Cooper had for his colleagues Mr. D. Jolley, Acting Assistant Port Officer; Captain Davis, of the s.s. Empire; and Captain Alexander Burgess, of the s.s. Peveril.

Mr. Cooper, after reviewing the evidence submitted to the court, said:—After carefully considering the evidence, the court has come to the conclusion that the stranding of the s.s. Monkseaton on the foul ground off the S. E. Prong on the morning of the 24th ult., whilst proceeding out of Bombay harbour in charge of Mr. Melling, first-grade pilot, was due to the carelessness and inadvertence of Mr. Melling in the performance of his duties as a pilot. But no blame is attributable to the master, officers, and crew, as every order given by the pilot was implicitly obeyed. Mr. Melling has stated that after passing the Sunk Rock Light, when about one-quarter of a mile to the eastward, he ordered the helm to be steadied, and steered his usual course. The Sunk Rock Light was then on with the centre of Salsette Hill, and the Outer Light-ship, about one point on the starboard bow. The court is of opinion that it was neither expedient nor prudent for a pilot to have taken that course, passing so close as he must have done to a danger-ous reef with a heavily laden and deep draught ship drawing 23 feet 8 inches at low water spring tides. The court considers also that Mr. Melling failed in his duty after steadying the helm, after passing the Sunk Rock Light, in that he omitted to give the helmsman a course, or point out to him the Outer Light-ship as the object to steer by, and also showed great want of care and attention in looking after the steering of the ship, when passing so close to the S. E. Prong, as the ship had not sufficient room to port its helm, if required, to any extent to avoid any vessel that might have been met with in her course. It has been brought to the attention of the court that a direct course cannot be steered between the Outer Light-ship and the Sunk Rock Light, and that before the Inner Light-ship was removed a direct course could be steered between that vessel and the Outer Light-ship. It therefore appears most desirable to the court, and they strongly recommend, that a large buoy should be placed just clear of the foul ground known as the Seventeen Feet Patch and extreme of the S. E. Prong, which buoy would be of great service to pilots and masters, especially to the latter, when having to enter the port without a pilot, and in thick hazy weather when landmarks and other objects are obscured.

A CORRECTION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I shall deem it a great favour if you will allow me to make certain corrections, with reference to my letter of the 1st inst., headed "Lawlessness in the Native Town," which, in all fairness to the police, I ought to make.

I had made mention of an incident of a robbery occurring on the Kalbadevi road, which I understood my brother to say was seen by him; but on further inquiry, I find that he heard it from some people, and I believe it is not true.

As regards assaults, the law, since explained to me, is, I understand, that the police have power to take up persons for disorderly behaviour on public streets, and when there is a likelihood of an assault resulting in serious injury taking place. Common assaults, I am told, are not cognizable by the police, and consequently they cannot interfere.

It was to this point I wished to call attention, and suggested an alteration in the procedure. As my letter tended to reflect on the police of this city, I have taken the earliest opportunity of clearing up matters.—I am, &c.

THE MATRICULATION EXAMINATIONS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The Matriculation Examination commenced to-day. Boys, as usual, expected English and history. But for the former was set the paper on history, and for the latter that on arithmetic and algebra. And besides, what to-morrow's papers are to be, students have not been informed. I wish to ask you if there is any justice in such an arrangement as this. Students, in order to be able to answer questions well, require to have full confidence in their preparation before they go to the examination hall. But this confidence students cannot be expected to have unless they have read beforehand the subjects for the next day, and their memories are thus refreshed. A re-examination may be held to be necessary when the one already held is declared vitiated. But is such an arrangement as this at all justifiable and allowable? I think this arrangement will have cost boys a great deal; and I have heard many bitterly complaining of it, and eagerly wishing for some recompense for the loss they have thereby sustained. Students have been already taken unreasonably to task for the guilt of others by the examination managers; they ought not to be again treated with severity at the hands of the examiners.

Dec. 2. STUDENT.

THE L. M. AND S. EXAMINATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Will you allow me to bring this subject to the notice of our University authorities, if possible, before the L. M. and S. results are declared? The senior students of the Grant Medical College claim to have the same advantages that have been granted to their junior brethren for the last two years. The junior students, if they fail to pass in the University examination in anatomy or physiology, but have satisfied their examiners in chemistry, botany, and materia medica, are exempted from the examination in the latter subjects when they re-appear next year. On the same principle, the senior students request to be exempted from being re-examined in midwifery, diseases of women and children, medical jurisprudence, toxicology, and hygiene, if once they have satisfied their examiners in these subjects, but failed to pass in medicine or surgery. We sincerely wish that this rule should be put in force this year, and hope that the Medical Faculty will not object to the removal of the anomaly. It would be superfluous to add that by this change the students would willingly devote their time and energies to the minute study of the more important subjects of medicine and surgery, in which they will cut a creditable figure, and pass out better qualified to practice, than if they were to gain their degree under the existing regulations.

Bombay, Dec. 2. A CANDIDATE.

HOMES FOR LEPERS AND MAIMED BEGGARS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—"W. G. H. E.'s" letter this morning exacts a prompt answer from me.

I am sure that Professor H. Vandyke Carter M.D., of London University, and perhaps the great est living authority on leprosy, its pathology, and treatment (to say nothing of his European fame as a discoverer in the pathology of other diseases), I am sure, I say, that Dr. Carter would never advocate the compulsory imprisonment, however comfortable, of consumptive patients, though consumption and leprosy are microbial diseases, and possibly (especially consumption) both of them to a certain extent communicable and hereditary. Consumption is inoculable to guinea-pigs, &c. But no one has ever been able to inoculate leprosy as yet. But this is neither here nor there. Neither God nor enlightened statesmen will allow us to imprison consumptive people; yet consumption is much more dangerous to life, and more contagious, if it be so at all, than leprosy. Neither humanity, Christianity, nor political economy will allow us to imprison the victims of diseases that are not quite distinctly and undeniably contagious. Now, although leprosy as yet is not inoculable and neither contagious, infectious nor hereditary to any greater extent than ague, nor so much as consumption and other diseases, would you imprison consumptive patients, as the victims of life-long, undeniably contagious diseases? I believe not. As regards leprosy, you can scarcely even prove that it is more communicative or hereditary than ague, which is a distinctly microbial disease too. But, microbial, bacterial, bacillary, &c., do not necessarily mean contagious, even though inoculable, as consumption is.

Again, I think there is nothing more in "Pro Bono Publico's" or "W. G. H. E.'s" letters to answer; but as he seems to think that my sentiments and those of all right-thinking men are in any way at variance with those of one of our most distinguished *savants*, I have to be obliged to trouble you with this tedious letter. Dr. Carter would never, I am sure, demand the imprisonment of lepers, consumptive people, or maimed beggars; nor, when such demands are made by others, can they expect silence from.

THE GOCULDAS TEJPAL HOSPITAL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—On reading over your report of the proceedings of the last Corporation meeting in connection with the future control of the G. T. Hospital, I was particularly struck with one or two things which, I think, ought not to be passed unnoticed or unchallenged. My only apology for thus trespassing on your valuable columns is in the fact that the question of the control of the G. T. Hospital is both a public and a medical one, and hence it is necessarily open to the consideration of the public, much less members of his own profession, that he was right in adopting the line of conduct that he did, in siding with the official element of the committee. As I have already trespassed very much on your space, I reserve my further remarks for another occasion.

DIVINE SERVICE.

ST. THOMAS CATHEDRAL.

FRIDAY, DEC. 4.

8-30 p.m.—Communicants' Meeting.

Holloway's Pills and Ointment.—

his and the Nur Singh party into a powerful faction with serious alarm, came to the conclusion that for the interests of the State, and to prevent the country from being thrown into serious disorder, it was necessary that Sir Runodeep Singh and General Juggut Jung should be removed; and in Nepaulese fashion the mode of removal decided upon was to put them to death. This resolution was carried out suddenly and with complete success. The Prime Minister and Juggut Jung were both seized and killed. It was hoped that the revolution would be accomplished without further bloodshed, but Yuddha Prohab Jung, eldest son of Juggut Jung, was also killed, in retaliation for firing upon the party sent to seize his father. The revolution thus cost only three lives, in which respect it differs widely from previous revolutions in Nepaul and elsewhere. The result has been to bring about a change of Government which is likely to produce a thorough reform of both the internal administration and the foreign policy of Nepaul. The new Prime Minister is Bir Shumsheer Jung, Rana Bahadoor, son of the late Dhere Shumshere Jung. He was educated in Calcutta at the Doveton College, and has for some years past had charge of the administration of Western Nepaul, in which capacity he has introduced many useful reforms including a commencement in the direction of female education. He is now about 37 or 38 years of age. For his chief assistant in the high position he has chosen General Khudg Shumsheer Jung, Rana Bahadoor, who has also had the benefit of an education to which Nepaulese statesmen of the older school are strangers. Khudg Shumsheer Jung passed the Entrance Examination of the Calcutta University some four or five years ago, and was presented with an autograph letter of congratulation, together with a medal, by Lord Lytton, the then Viceroy, who took a warm interest in the young Nepaulese Chief's educational progress. The results of the revolution are regarded by the people of Nepaul with general satisfaction, as bringing into power an administration which is likely to be both stable and progressive. In particular, the change of Government is calculated to have a favourable effect on the relations of the Nepaul Darbar with the Government of India. It has been to the new Prime Minister's advocacy of those measures that we owe the promise of the Nepaul Government to permit direct recruiting for the Indian Army in Nepaul, and to send a contingent of Nepaulese troops to the forthcoming Camp of Exercise. He has already, since his accession to power, given instructions for immediate arrangements to be made for despatching 3,000 troops to the Punjab. Nepaul would appear to have gained by the revolution; and while we must regret that no more constitutional method of obtaining reforms exists there, it is a matter for congratulation that in regard to the sacrifice of life the incident compares so very favourably with previous occurrences of a similar kind, and that its results promise to be so beneficent as almost to justify in Eastern eyes the means adopted to obtain the end.

N.-W. PROVINCES, OUDH, AND PUNJAB.

THE RIDING ACCIDENT AT AGRA.—Dr. Tyler, Superintendent of the Agra Jail, met with a very serious accident on Saturday. He was out driving when his dog-cart came into violent collision with another in which Mr. Halse and two young gentlemen were seated. Dr. Tyler was thrown out, and fell with great force on his head. He was picked up totally unconscious, and was conveyed from the scene of the accident, near Mr. Colwell's house, to the club, where he remained till half-past five on Saturday evening, when he was carried in a palanquin to his own bungalow. It was at first feared that the skull was fractured, but happily this is not so, although there is severe concussion of the brain. The unfortunate gentleman is going on as favourably as the doctors can expect, but he is by no means out of danger. Dr. Tyler was to have shown the Viceroy through the Central Jail on Saturday evening.—*Pioneer.*

THE PROPOSED REDUCTION OF FOREIGN TELEGRAPHIC RATES.

MR. PENDER, the Chairman of the Eastern Extension Telegraph Company, at the recent meeting of the Company in London, said that the Eastern Extension Company had for some time been considering the necessity of reducing their rates to Australia, for, owing to the vitality of that traffic, they believed they could, in the course of a year or two, or perhaps three years, return to something like the amount they were now earning, if they made even a very considerable reduction. They were anxious to make that reduction, and at the convention he had announced on the part of the company that they were quite prepared to do so, provided that India and South Australia reduced their proportions. The South Australian Government at once agreed, but the Indian Government replied that their exchequer could not afford to do so. Urgent pressure was then brought to bear upon the company's delegates to make the reductions unconditionally, but as they had for the last two years been endeavouring unsuccessfully to induce India to reduce her high transit rates across India, it was determined to use the lever which the company would have by withholding her share until India co-operated to obtain the object they had so long had in view. He might give an illustration to show what he might call one of the hardships which the Australian people had to submit to from the charges of the Indian Government. If the company had the same arrangement with that Government for the transmission of their messages across India for Australia which they had with the Government—that was, having a special wire, and paying so much for it—they would pay the Indian Government £3,500 a year, whereas they now paid £40,000 a year. If they were to get that reduction, it would enable the company to give the Australian colonies a reduction of 2s. a word, and in addition to that they were prepared to give such a further decrease in recognition of the increased traffic as would eventually, he believed, result in a large addition to their traffic. That was the position they were now in in regard to this matter. They were endeavouring to bring pressure upon the Indian Government, and they were being supported by the Agents-General of Australia in their effort. He was hopeful that before their next general meeting they would have carried their point, thus enabling them to benefit Australia largely without, he thought, injuring very seriously the company's returns. He might mention that any reduction they now contemplated, if carried out, was not likely to interfere in any way with their dividends, unless some unforeseen circumstances should arise. The Telegraph Convention would not meet again for five years, and he trusted that for that period they would be considerably at rest. He wished to say publicly that it was always to be borne in mind that the company had to pay dividends, and that they ought to be moving upwards rather than downwards; but whenever they saw a decided growth in their traffic, they would always be prepared to meet it by such a reduction in their charges as they would be warranted in making without injuring the best interests of the company and the shareholders. They had to pay dividends, but Governments had not. Many of the land telegraph systems in Europe did not pay, and consequently the Governments concerned had to draw upon their exchequers, but the company had no such source to go to. No competition which might arise could, he stated, do the work cheaper or as well as their company. They took their departure from Madras, up to which the messages were forwarded by the Eastern Company, who gave a rebate to the Eastern Extension Company which no other company could possibly obtain. He wished to say a few words of complaint, though in all good humour, against the Press. They had as a rule always given quarter rates to the Press, and it had been the wish of his board to give that concession as regarded Australia, though they had never been able previously to get permission to do so. At his very first interview with Dr. Von Stephan he had asked him, in the interest of the Press, to consent to the reduction to quarter rates, and he had succeeded in his request. When the Press were hitting the company very hard for not giving up 1s. 6d. because India would not give up 3d., he thought it hardly right to have recognised the concessions which they obtained. They wanted no assistance from the Press if they were going in a wrong direction, but he thought when their acts were right they were entitled to a little support.

ADVICE TO MOTHERS.—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. MRS. WINSLOW'S SOOTHING SYRUP is sold by Medicine dealers everywhere at is. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 33, Farringdon-road, London.

ADVICE TO INVALIDS.—If you wish to relief from quiet, refreshing sleep, free from headache pain and anguish, to calm and assuage the ary aching of protracted disease, invigorate the nervous media, and regulate the circulating system of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Diarrhœa.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

From Symes & Co., Pharmaceutical Chemists Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33, Great Russell-street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our own observation during many years. In Cholera and Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBERS AND PATIENT ALIKE. We are, sir, faithfully yours, Symes & Co., Members of the Pharmaceutical Society of Great Britain, His Excellency the Viceroy's Bearers.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitation.
